- A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially, however, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 14 and 15 would be 14.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the RCA. For example, the 4th Revised Page 14 cancels the 3rd Revised Page 14.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets - When a tariff filing is made with the RCA, an updated check sheet accompanies the tariff filing. The check sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages).

Secure Collect provides an alternative payment arrangement for inmates in Correctional Institutions. This service enables end users to receive calls originating from confined persons and who cannot or who do not wish to have such calls billed through their own local exchange service provider.

A Secure Collect account is set up by the Company for the Customer who receives collect calls from an inmate in a correctional facility. Once an account is established, all collect calls from the correctional facility to the telephone number associated with the prepaid collect account are automatically processed as prepaid collect. The Company does not engage in direct monetary transactions with the inmate. Accounts may be replenished, there are no deposit amount requirements.

Network usage is deducted from the Available Usage Balance in the account on a real time basis as the call progresses. All calls must be charged against an Account that has sufficient available balance. Calls in progress will be terminated by the Company if the balance on the Account is insufficient to continue the call. Customers are responsible for contacting the Company's Customer Service Department to obtain the Available Usage Balance remaining in the Secure Collect Account. For debiting purposes, call timing is rounded up to the nearest one (1) minute increment. Usage charges are computed and rounded up to the nearest penny on a per call basis.
